RE: 119 Winter Street/Fire Doors Installation Extension
Jennifer Defilipp
119 Winter Street #1
Portland, Maine 04102

Captain Pirone,

It is with future intent that Marc Smith and Jennifer Defilipp, resident owners of the property referred, will install three unit egress fire doors on the second level of the property. Our initial intent was to order through Camco and have them installed by September 15th. Currently, we are financially not able to accomplish this mission, though we have cleared the hallway, checked fire alarms and extinguishers, and replaced a second door leading into the basement. I would like to request an extension and set a new date for completion on April 15th, 2013. We

appreciate any understanding in this regard and hope to be up to fire protection code soon.

Thank you,
Jennifer Defilipp
Marc Smith
