Dear Matt;

re: sign specifications for permit (parking lot)

A) material - the sign will be made out of 6" extruded aluminum extrusion painted with Matthews polyurethane paint.

B) illumination will be provided by LED lamps.

C) sign frame work will be constructed of 2x2 x 1/8" aluminum angle with fabricated baseplates.

D) sign frame will be affixed to the concrete using stainless steel sleeve anchors .

Please call if you have any questions.
