Jean: thanks for the feedback. I think we'll move forward with the Plat based on your suggestion. I think we should submit that now along with our draft final condo documents for review.

Regarding the location of a new light pole, we're flexible. If we can get buy-in for a fully landscaped boarder, there may be a design everyone agrees with that includes two poles to get better coverage for the full length of the lot.

Rick and Mike; can you please provide the relevant documents to Jean.

Todd M. Alexander
