HVAC Project To Begin: Upon Approval

Contract Completion Date: 2 Business Days

Date Of Plans: \_\_\_\_\_ Architect: \_\_\_\_\_ Engineer: \_\_\_\_\_

Work performed at 195 State Street Portland, Maine

(Street Address And Legal Description, If Known)

We hereby propose to furnish the following HVAC work:

**OPTION 1: SINGLE UNIT-1<sup>ST</sup> LEVEL**

Install one 15K BTU wall mount evaporator, Fujitsu Model ASU15RLS3 in the living room. Line set to exit out and run across top of window, over and down to connect to matching outdoor condenser unit, Fujitsu Model AOU15RLS3H mounted to a wall bracket secured to the wall.

**Price: \$3569**

**OPTION 2: MULTI UNIT- 1 UP/1 DOWN**

Install one 12K BTU wall mount evaporator, Fujitsu Model ASU12RLS3 in the living room. Line set to exit out and run across top of window, over and down.

Install one 12K Floor mount evaporator, Fujitsu Model AGU12RLF in the master bedroom. Line set to run into knee wall, across, out through soffit and down. Both interior units to connect to a common outdoor condenser unit, Fujitsu Model AOU24RLXFZH mounted to a wall bracket secured to the wall.

**Price: \$6579**

**NOTES:**

- ▶ All refrigerant lines will be pressurized and leak checked, purged and vacuumed
- ▶ **Dave's Appliance, Inc. is a Fujitsu factory trained Elite Contractor. Warranty is increased from 5 year parts, 7 year compressor to 12 years parts, 12 years compressor.**
- ▶ Pricing includes **1 year labor warranty** to compliment manufacturers 12 year parts, 12 year compressor warranty
- ▶ Extended labor warranty of 5 or 10 years available at additional cost
- ▶ Labor quote is estimated. Actual time will be billed upon completion and will not exceed estimate
- ▶ Outdoor power disconnect installation is not included in this quote.
- ▶ Disconnect to be installed by a licensed Master Electrician. Disconnect to be located within 4 feet of outdoor unit.
- ▶ Single type outdoor units require a 220V 20A Circuit
- ▶ Multi type outdoor units require a 220V 30A circuit
