COMMENTS:

We Contract "Maine Bed Bug and Pest Control" for these issues and they did a chemical treatment for us free of charge due to a delay on heat treatment on his end. He instructed us to give a instructional Pamphlet to the tenant so this would sufficiently abate the issue until he could arrange further treatment (roughly a week from now). The tenant said Pine tree legal had issues with this and stormed out of our office w/ the info. but exterminator found she had not complied. He treated her apt. as best he could. His contact info is on attached invoice.

Adam Rice
Operations Manager

Maine Bedbugs and Pest Control
and
Heat on Wheels
61 Westwood Rd.

(207) 650-8654

Invoice for Services on 11/12/14:

Contact Name: Adam

Billing Address: Apartment Mart
657 Congress Street
Portland Maine, 04101

Service Address: 655 Congress St-
Service Provided Chemical Treatments for bedbugs in Units:
211, 212, 214, 215, 217, 218

Chemical treatments were applied in each of these units. It is very important that the tenants follow the instructions provided for preparation and maintenance during the initial treatment and between follow up treatments. None of the units listed had completely complied with the instructions provided. This seriously undermines any potential for success.

Thanks!

Dale Carlson
