I asked David Lloyd to submit a site plan exemption since his client was not ready to move forward with the full set of plans. I sent an e-mail asking the status, but had not heard back. I was ready to write a letter saying that the application had lapsed or some such thing. I will call David, unless you have seen an exemption request?

We have a permit for the new elevator tower. Can we issue a building permit? Can I get a copy of the stamped approved site plan.

Sarah Hopkins Development Review Manager City of Portland 389 Congress Street Portland, ME 04101

RE: New Elevator and Apartment/Retail Building - 635 Congress Street

Dear Sarah,

We are submitting our Site Plan Application for a proposed 4 story building consisting of 1st floor retail and 15 apartments on floors 2-4. The new building is to be located on the empty lot adjacent to 635 Congress Street, zoned B3. Please note the following:

- 1. The owner intends to complete the work in 2 phases.
- 2. Phase 1 consists of building a new elevator on the empty lot adjacent to 635 Congress street. The existing troublesome elevator will be removed and the new elevator will serve the existing Burnham *Arms* apartment building. The remainder of the empty lot will be utilized for parking. A strip of landscaping will screen the parking from Congress street.
- 3. Phase 2 consists of removing the vacant single story building adjacent to the empty lot and building a new 4 story retail/apartment building around the elevator built in Phase 1. The elevator will then serve both buildings.

Square footage breaks down approximately as follows: <u>Phase 1</u> Floors 1-6 85 square feet per floor

Phase 2First floor (retail)4490 square feetSecond floor (residential)4200 square feetThird floor (residential)4200 square feetFourth floor (residential)4200 square feet

We are looking to have a workshop with the Planning Board.

Please call with any questions or concerns. Thank you,

Sincerely,

Ζ.

Barry,

I designed the foundation for the subject building shown on sheet S1 dated August 15,2006 in accordance with the following:

Report on Subsurface and Foundation Investigation Proposed Elevator Addition Portland, Maine April 21,2006

The report was prepared by: Sebago Technics One Chabot Street Westbrook, Maine 04098-1339 207-856-0277

Please call me if there is any question.

Statement of Special Inspections

Project: Burnham Arms

Location: 625 – 635 Congress Street, Portland, ME

Owner: MPB Properties, P.O. Box 2282 Scarborough, ME

Design Professional in Responsible Charge: David J. Tetreault, P.E.

This Statement **d** Special Inspections **is** submitted as a condition for permit issuance in accordance with the Special Inspection and Structural Testing requirements of the Building Code. It includes a schedule of Special Inspection services applicable to this project as well as the name of the Special Inspection Coordinator and the identity of other approved agencies to be retained for conducting these inspections and **tests**. This Statement **o**f Special Inspections encompass the following disciplines:

Structural

Mechanical/Electrical/Plumbing Other:

The Special Inspection Coordinator shall keep records of all inspections and shall furnish inspection reports to the Building Official and the Registered Design Professional in Responsible Charge. Discovered discrepancies shall be brought to the immediate attention of the Contractor for correction. **If** such discrepancies are not corrected, the discrepancies shall be brought to the attention of the Building Official and the Registered Design Professional in Responsible Charge. The Special Inspection program does not relieve the Contractor of his or her responsibilities.

Interim reports shall be submitted to the Building Official and the Registered Design Professional in Responsible Charge.

A Final Report of Special **Inspections** documenting completion of all required Special Inspections, testing and correction of any discrepancies noted in the inspections shall be submitted prior to issuance of a Certificate of Use and Occupancy.

Job site safety and means and methods of construction are solely the responsibility of the Contractor.

Interim Report Frequency: As required

Quality Assurance Plan

Quality Assurance for Seismic Resistance

| Seismic Design Category | С |
|---------------------------------------|---|
| Quality Assurance Plan Required (Y/N) | Y |

Description of seismic force resisting system and designated seismic systems:

The seismic force resisting system consists of ordinary reinforced masonry shearwalls as shown on Sheet S1. IBC/2003 Table 1617.6.2 Type IF.

1705.1.1 Q/Aplan is required for the seismic force resisting system. Q/Aplan consists of Special Inspections of Reinforced Concrete, Reinforced Masonry and, Steel Deck.

1705.1.2 refers to SDC D, E and F therefore Q/A plan not required
1705.1.3 refers to hazardous materials in ducts and piping and to emergency standby power. None present therefore Q/A plan not required.
1705.1.4 refers to SDC D therefore Q/A plan not required.
1705.1.5 refers to SDC E and F therefore Q/A plan not required

Quality Assurance for Wind Requirements

| Basic Wind Speed (3 second gust) | 100 mph |
|---------------------------------------|---------|
| Wind Exposure Category | С |
| Quality Assurance Plan Required (Y/N) | Ν |

The building is in wind exposure Category C with a 3-sec gust basic wind speed less than 110 mph therefore a quality assurance planfor wind is not required (IBC/2003 Section 1 706.1.1.2).

Statement of Responsibility

Each contractor responsible for the construction or fabrication of a system **or** component designated above must submit a Statement of Responsibility.

Qualifications of Inspectors and Testing Technicians

The qualifications of all personnel performing Special Inspection and testing activities are subject to the approval of the Building Official. The credentials of all Inspectors and testing technicians shall be provided if requested.

Key for Minimum Qualifications of Inspection Agents:

When the Registered Design Professional in Responsible Charge deems it appropriate that the individual performing a stipulated test or inspection have a specific certification or license as indicated below, such designation shall appear below the *Agency Number* on the Schedule.

| PE/SE | Structural Engineer – a licensed SE or PE specializing in the design of building structures |
