Thank you Thomas,
I will be signing off on your permit. And good luck on your surgery. I hope all goes well.
Marge

Hi, Marge,
Sorry for the delay in getting back to you...am having surgery on Tuesday 1/21 and have been too ill/ ambivalent to even look at my mail! I'm usually more responsible than that.
I just spoke with my mgr., had him measure the sign...folded up it is 46" but spread open out on the street it reaches a cool and acceptable (thank God!) 39". It's a good thing as the sign people assured me it was code friendly when I bought it and I'd not be a satisfied-or happy- customer otherwise.
Thank you for you attention to this for me and, again, I apologize for being tardy getting back to you.
Best wishes,
Thomas

Hi Thomas,
I am reviewing your application for a sidewalk sign. One of the requirements for such signs is that the maximum height in place is 40 inches. the only dimension that you gave us is that the actual sign is 46 inches in height. Can you give me confirmation as to the height of your sign when it is in place?
I can not sign off on your permit until I have that compliance information.
