RE: Scope of Work 556 Cumberland Ave.

Master electrician, hired by HH Sawyer will install a new, code compliant fire alarm system for 12 unit apartment building located on 556 Cumberland Ave.

The building is not sprinkled. The panel will be located in the main entrance of the first floor. The system will be monitored via a 24 hour central station of the customer's choice utilizing a cellular dialer.

System connected heat detectors inside the units will be conventional type. An addressable monitor module will be installed above the door outside of each unit to indicate which unit is in alarm.

Norris Inc. will provide the fire alarm equipment, submittal documents for fire alarm permits, and final connections and testing per City of Portland requirements.

An electrical permit has been pulled by HH Sawyer Realty.
