Subject: 3 Deering Ave.

Ben,

Confirming our meeting today, we will get a recommendation from an alarm company to install a fire alarm system to protect the 2 apartments on the second floor from a potential fire on the first floor. We will advise the contractor to contact you with any specific questions he might have regarding this.

We will accomplish this work in a timely manner, and notify your office when it is completed. All of your other recommendations are being worked on starting today, and should be completed within 2 days.

Thanks for your help today.
