Re: 218 State Street
CBL: 047 C039001
Permit: 2015-00217

To whom it may concern:

The City of Portland Inspections Division has reviewed a building permit application for the construction of alterations (alterations to kitchens, bathrooms, lighting, boiler, flooring, roof, window & door replacements, new sprinkler system and siding, electrical, fire alarm, and elevator upgrades, roof & masonry repairs including repointing, site improvements) on the above-referenced property. This letter confirms that the only condition precedent to the issuance of a building permit for the project is payment to the City in the amount of \$15,981.00, which is the fee for issuance of the building permit.

Sincerely,

Tammy M. Munson
Director of Inspections
