Captain John Brennan
Fire Prevention Bureau
380 Congress St
Portland, ME 04101

Dear Captain John Brennan,

We would like to request an extension for the Notice of Violation and Order to Correct for our property at 120 Park Ave. Our plan of action for the bathroom ventilation shafts is to remove the current access hatches in each apartment and seal the openings up with 5/8 sheetrock. We will also insure that all ceiling vents going into the shaft are that of the rigid type. We are requesting to have 10 months to complete the work for the 20 apartments in the building. We will have all the work completed prior to May 31, 2020. As soon as the work is completed, we will call to set up a re-inspection. The second violation on the notice for the room where the gas meters and fire alarm panel are located has already been corrected.

Regards,

Harrison Wirth
