RE: Condition of Apartment
CBL: 048-E-030

Dear Mr. Kee-Siguera:

On April 8, 1999, an inspection of the apartment occupied by you at 553 Cumberland Avenue was conducted by myself and Arthur Rowe of Portland Inspection services. Also present was a representative of management for the building.

The results of the inspection were:

There was evidence of cockroach infestation throughout the entire apartment. This needs to be taken care of by the owner/management of the building. However, this cannot be accomplished until you remove a great deal of the clutter from the apartment.

I understand that this is the second time you have been to this point as far as housekeeping is concerned. Please understand that management wants to rectify your roach infestation problem. They cannot, however, until you do your part.

Please realize that you are possibly jeopardizing your tenancy at this rate, and you must do organize your apartment so that management can have the unit sprayed before the roaches spread to other apartments.

I am asking that you have someone contact me on your behalf concerning the above issues no later than April 19th, 1999.

Please do not let this issue go unregarded. Thank You for your co-operation.

Sincerely,

Jonathan J. Reed
Code Enforcement Officer
