Good morning,
Your proposal is approved. Just to be clear on #1, the door and frame must be 60-minute labeled in addition to being self-closing. An approved method for self-closing a residential fire door is with two self-closing hinges.
Thank you,

Benjamin A. Wallace Jr.
Fire Prevention Officer

Regarding the violations noted at 108 Sherman St, here is what we propose:

#1. Fire Doors: We will replace one unit - 2 doors each - every month starting in July with 60 min fire doors and self closing hinges.

#2. Exits obstructed - This will be done immediately.

Please let me know if this is acceptable. It is the most we can afford. Thank you.

Patricia Gulian - manager
