Please find attached a Building Permit Application for the installation of new safety glass windows in place of the existing rear deck doors on all three levels of the multi-family building at 563 Cumberland Avenue in Portland. This work will require the use of the current rear decks for temporary staging for this repair. These decks will be fitted with life safety restraints during the work. Upon completion of the work all three levels of the deck will be torn down, not to be rebuilt.

Feel free to call with any questions.

Thanks,

...Jack
