Dear Inspection Division.

Here's an application, including fast tract, to install 7 fire rated doors in Joanne Connolly's residential apartment building located at 58-60 Exeter Street, Portland ME.

She's been granted permission from the Planning Department to legalize 1 of 3 units. The Portland Fire Department inspected this building and said these 7 metal fire doors will need to be installed as part of the process to get 1 unit legalized and obtain an occupancy permit for that unit. .

Thank you,

Vin Connolly
