Re: Maine Medical Center—MGB2
Review of Electrical Design

Dear Mark:

I had a meeting with the City of Portland Electrical Inspector, Michael Collins, this morning to review the electrical design for the Maine Medical Center—MGB2 renovation project. We discussed the electrical design concepts and the actual electrical drawings. Mr. Collins is satisfied that electrical construction drawings are in accordance with the City of Portland's building codes.

If there are any questions about this matter, please do not hesitate to call me.

Yours truly,

Ralph F. Sweet, P.E.
