REMARKS: Dear Richard McCarthy,

Please see attached construction documents permit set for plan review, and applications for Construction Permit and Barrier-Free Permit for the Maine Medical ACCU Relocation project. All required payments as well as a full-size construction document set are being mailed to you.

The ACCU Relocation project consists of a total of 9,880 GSF clinical space renovation on levels 7th, 8th, and 9th of the Richards building at Maine Medical Center. The bulk of renovation work is located on level 8, where existing general administration space will be converted to 11 new ACCU Bays and supporting spaces. The scope of work on level 8 will also renovate existing Cath Lab supporting spaces.

The project and documents were prepared according to state and local codes, zoning and building ordinances, and the AIA 2006 Guidelines for Design and Construction of Health Care Facilities.

Sincerely,

Jeffrey Keilman, AIA, LEED AP BD+C
Senior Associate, Project Architect
