From: Jean Fraser

Subject: Application ID: 2017-289

Date: 1/18/2018

1/17/2018

Circulation--The ambulance emergency room entrance should remain open to one way traffic. The area can be difficult to maneuver in its current design. Making the patient delivery area a two way drop off doesn't seem achievable.

1/17/2018

The Fire Dept is opposed to the closing of Congress Street, doing so will create difficulty for all ambulances in getting their patients to the hospital emergency room. The proposed detours will create high congestion on all streets leading to the hospital emergency department.
