Richard Martineau

Turner Construction Company

Maine Medical Center – Visitor Garage / East Tower

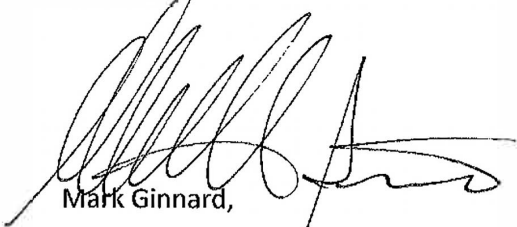

Attention: Richard Martineau

Dear Mr. Martineau,

In accordance with your previous direction, we have commenced with Engineering for the Perforated Panel Scope on the Congress Street Fascia of the Visitor Garage in accordance with Addendum #4 documents dated 4/13/18.

We are working towards a scheduled install start date of 5/1/20 for this scope and anticipate the first set of shop drawings ready for submission within 4 weeks from today's writing.

All dates will be contingent on the perforated panel manufacturer's "lead time" from approved drawings.

Mark Ginnard,

President New Hampshire Steel Fabricators, LLC

New Hampshire Steel Erectors, LLC (Local 7 Ironworkers Contractor)
