Hi Nell – the only other comment that I would make is that coordination with METRO should take place. I'm not exactly sure of bus stops in this work area. I did not see anything noting METRO impacts. I know it's related to the duration comment, but on-street parking shall be returned when feasible.

Thanks

Hi Nell,

I am very satisfied with Mike's comments and have nothing more to add.

All,

Any comments on this?

Nell

All,

I'm attaching a plan for the area of mountable curb along D Street at Alan Prosser's driveway (stamped approved plan set attached as well) . The hope is that this plan, if acceptable to all of you, splits the difference with the neighbor and allows MMC to move forward with the sidewalk construction.

I'm also attaching the CMP related to this work (which you noted would be required when you commented on the overall CMP, Tom). Please take a look and let me know if you have questions or comments. (Mike, I am not sending to Jen, but if she should be included in this review, please feel free to send along.) I will send to fire under separate cover.

Thanks for taking a look at yet another one of these!

Nell
