Good afternoon Glenn,

I spoke with our Architect and have come up with a few solutions and comments to the items you pointed out. Please see below comments and attached plans for revisions. Let me know if you need any additional clarifications with these drawings.

- 1.) We eliminated the small 3' half wall

- 2.) We added a light gauge post to the 7' tall wall for support

- 3.) The door out the rear of the space leads into the parking garage which then leads to an egress exit to public way.

- 4.) We have revised the kitchen for ADA accessibility see the interior elevation on A4-1.

Thank you.

Chris Rodenhizer | Project Superintendent
