

5 Crescent Street Portland

City of Portland
Planning Department
Permit to extend the western
Dormer at 5 Crescent St. Portland
Hand Delivered.

8/15/16

To whom I may concern,

Enclosed, please find my check for \$145 to be attached to and accompany my building permit application from earlier this month. Said application is for seeking permission from the City to add an additional 9-foot extension onto the present 7-foot wide dormer in place now. Said dormer is on the top westerly side of the building and with this done, it will turn what is currently an unusable room, into a decent size designer bedroom.

I'm sure you folks are out straight right now but seeing that there's no plumbing or electrical involved with this project, would it be possible to get your feedback a little sooner?. Not that it's your concern, but I've got guys setup to line the chimney and then other guys to put a new roof on, but nothing happens unless the dormer gets done.

Please advise.

Thank you for your time and consideration,

Laurence A. Kelly
