To whom it may concern;

**RE: 9 Wescott Street, Portland, Maine**

Please accept this letter as a confirmation that Abatement Professionals was hired by Chris Wilson of Les Wilson & Sons to conduct a renovation / demolition impact survey at the building located at 9 Wescott Street, Portland, Maine.

The object of this survey is to sample suspect materials that may contain asbestos before any renovations / demolition is started.

- The building has been renovated extensively in the recent past before the crane fell on it. We found no suspect materials to sample and would consider this building safe to demolish.

Abatement Professionals performed the asbestos removal on 11/1/13

Therefore, as of today 11/11/13, the property has been cleared of any asbestos and ready for the next phase of development.

If you have any questions please feel free to contact my office at 207-773-1276 ex 204.

Sincerely

Kyle Rickett  
Vice President
