To Whom it May Concern,

I am giving notification that "Marco Services" will no longer be the contractor installing the egress window on the 2nd floor at 11 Russell Street. I have attached the original permit for reference.

Please let us know if we need to do anything else.

Thank you!

To: buildinginspections@portlandmaine.gov, nm@marles.net, zm@marles.net

Please see the attached permit to replace an existing window with a properly sized egress window on the 3rd floor of the above referenced location. We also have submitted a permit to replace a section of gas line in the 1st floor apartment, about 10 linear feet of 1/2 CSST. This gas line was painted thus covering the identifying labeling.

We will mail in the permit fees of \$72.00 for both projects.

Please feel free to call me at 207-831-6147

Respectfully submitted,
