Good morning,

This project will be adding additional space to an existing unit. Walls will be constructed so I will ask my carpenter to do up construction plans and submit them asap.

Thank you for your help.

David

Are you building walls? if so, construction plans (cross section w/framing detail) are a requirement. Are you adding another dwelling unit or is this just extra space for a current unit?

I am not sure this is right but here it is again.

Thanks,

David Parker
