Subject: RE: FW: Butler Payson Building Permits

Drew, I was sent plans earlier and did not realize it was for this project. Has the application been filed? We will need to discuss time frames and when you closing is scheduled. I will need to get you a conditioned permit for the closing. I've done this before so it is pretty standard.

Hi Tammy,

I'm just confirming per our conversation of last week that Avesta will pay the required building permit fees for Butler/Payson once we receive our construction loan. We will pay the building permit fee for the immediate repairs in the attic of Butler School in advance of the closing. As discussed the work is required immediately and we will proceed with that work as allowed under the ordinance for "emergency repairs" Please let me know if you have any questions or would like to discuss further.

Regards,

Drew Wing

Good Morning,

The drawing submitted have not been stamped yet and the permit application design certificates have not been signed. Rick Goduti has out of the office and is returning later this week and will forward you these items onto you.

The address for Payson has been correct to 218 State Street.

Here <https://hebertconstruction.sharefile.com/d/sd4d1d106d2342d29> is the link to download the plans for that project. There are two sets in the zip file and are pretty large in size.

Thank You

Ann Bagley
