Re: 77 Pine Street  
CBL: 055 A019001  
Permit: 20150220

To whom it may concern:

The City of Portland Inspections Division has reviewed a building permit application for the construction of alterations (including kitchen, bathroom, & flooring replacements & painting in the apartments & common areas, window & door, lighting, boiler, & roof replacement, new siding, electrical, fire alarm, & elevator upgrades) on the above-referenced property. This letter confirms that the only condition precedent to the issuance of a building permit for the project is payment to the City in the amount of \$30,743.00, which is the fee for issuance of the building permit.

Sincerely,

Tammy M. Munson  
Director of Inspections
