Scope of Work: Butler Apartments

Regional Electric is installing new horn strobes and strobes as needed for apartment renovations. The new a/v devices will be tied to the existing addressable Notifier fire alarm system. The contractor will also install new 120V (local) smoke and co detectors as needed for coverage in the units. The local detectors will not report to the building fire alarm system.

A new AES master box will be installed for fire department reporting. The existing panel is monitored by a 24 hour central station as well.

Norris Inc. will provide the fire alarm equipment and the required documentation for fire alarm permits. Norris Inc. will perform the final connections and testing according to City of Portland requirements.
