Good morning-

Please find attachments with amended permit application for your review. We had originally intended to leave the front portion of the old foundation intact. During the course of our excavation, we have determined that the existing portion is in need of full replacement. amended s1 and s2 notes will clarify the change.

This is time sensitive because we are mid-stream in the excavation and have a dangerous hole in the ground. We would like to resume work as soon as possible.

I will stop in this afternoon to pay the additional \$30.00 fee for the change.

Thank you, James.
