Hi Chris,

Nice speaking with you. The plans we provided referenced the distance from an existing fence. I believe the property line is actually approximately 16" behind the fence, so the proposed porch would easily be clear of the 5' requirement.

Thanks,

Michael Ayotte

Hi Mike,

Thanks for speaking with me earlier about your permit application for a new covered porch. Per our conversation, could you please confirm that the setback from the new covered porch to the property line will be at least 5 feet? I can annotate your plans with this updated information. As I explained, the pre-pour inspection may raise the question of the exact location of the property line which may require a survey to locate.

Thanks,
Chris
