Subject: 684a Congress Street has no heat

Hello,

684a Congress Street has no heat in the entire building. The landlord has not turned the heat on yet for the year and it should have been turned on September 15. It is very cold in the building and very uncomfortable.

The building is owned by Geoffrey Rice and managed by Apartment Mart on Congress Street.

Geoffrey Rice is a repeat offender of heating violations in this building as I am sure your office is aware of due to previous complaints.

Can something be done about this?

Thank you,

Russell Norton
