

FIRE DEPARTMENT REQUIREMENTS

This application is for the following purposes:

Install fire rated doors for each of the seven apartments as instructed by Lt. Craig Messinger.

Increase the size of the access door to the basement apartment per instructions from Lt. Craig Messinger.

Install a new egress window in the basement apartment per Lt. Craig Messinger.

The only other work to be performed under this building permit is a remodel of Apartment 8 on the third floor. The primary purpose of this remodel is to renew the insulation on the third floor to increase the energy efficiency of the building.

Nothing in this building permit will increase the size of the existing structure. This is a historical building and apart from the new egress window, no changes to the outside structure will take place.

Name, address and phone number of applicant and the project architect.
