Sincerely,  
 receipt of this letter.  
 We do not have a change of use on file to support your change of use from two to three apartment units. Please consider this a request to apply for a change of use permit for this conversion, if you have not already done so. We shall expect to hear from you within ten days following the receipt of this letter.  
 Based on R-6 density of 1,000 square feet of land area per apartment, you would be entitled to four (4) apartment units, except there is now a minimum apartment size of 600 square feet and the primary units be at least 1,000 square feet of floor area.  
 4,884 square feet when added together.  
 We understand that you have a building at 42 Salem Street which has three apartment units, but our records in this office show only two apartment units are authorized there. The lot size for a combined two lots equals 4,884 square feet when added together.
