Area 3

During an inspection of your facility a certified State Inspector has found the following violations.

In this right hand column you are required to indicate how and when you will have these violations corrected. Complete this information and return this "Plan of Correction" to the above address within 10 days of receipt of this statement.

1. **dc10** All floor levels of residence must have a smoke detector that is powered by the house electrical supply. This also includes the basement or usable crawl space. (NFPA 72)
2. **dc08** Smoke detectors must be located outside of the sleeping rooms and must be audible in the sleeping room while the doors are closed. (21-3.3.1)
3. **dc34** A portable fire extinguisher with an ABC rating must be installed the area of the kitchen. The extinguisher must be checked for fullness each month and should be turned over to allow movement of powder agent. (NFPA 10)
