

To whom it may concern,

This letter is to verify details of installation for a photovoltaic array at 263 York Street, Portland, Maine 04102.

1. The new solar system will be installed by licensed and qualified installers.
2. The roof structure can handle the weight of the new load applied by the panels as well as any additional snow load.
3. All electrical work will be performed by licensed ME electricians.
4. All systems will be installed per manufacturers recommendations as well as all laws and ordinances followed by this municipality.
