Please submit all of the information outlined on the applicable checklist. Failure to do so causes an automatic permit denial.

In order to be sure the City fully understands the full scope of the project, the Planning and Development Department may request additional information prior to the issuance of a permit. For further information or to download copies of this form and other applications visit the Inspections Division on-line at [www.portlandmaine.gov](http://www.portlandmaine.gov), or stop by the Inspections Division office, room 315 City Hall or call 874-8703.

I hereby certify that I am the Owner of record of the named property, or that the owner of record authorizes the proposed work and that I have been authorized by the owner to make this application as his/her authorized agent. I agree to conform to all applicable laws of this jurisdiction. In addition, if a permit for work described in this application is issued, I certify that the Code Official's authorized representative shall have the authority to enter all areas covered by this permit at any reasonable hour to enforce the provisions of the codes applicable to this permit.

Signature: Stephen R. Bushey, P.E. (Agent)	Date: July 30, 2014

**Subject: Canal Landing New Yard – Phase 1**  
**100 West Commercial Street**  
**Applicant: Canal Landing, LLC**  
**Building Permit Application for Building B**

To Whom It May Concern:

As an Agent of Canal Landing, LLC, we are pleased to provide the accompanying Building Permit application for their proposed building activities at the Canal Landing site. Canal Landing, LLC is proposing to construct a new pre-engineered steel building structure in support of their proposed boat maintenance operations at the site. The project has previously received Site Plan Approval from the Portland Planning Authority. We have recently made an Amended Site Plan application to the Planning Authority related to the Site Plan modifications resulting from the IMT expansion project underway by the MaineDOT. We expect to receive an Amended Site Plan approval at their August 12, 2014 Planning Board Public Hearing. Copies of these permits and applications are on file with the Planning Department. In the fall of 2013, the City issued Building and Foundation permits related to the now constructed tension fabric building (Building A) (see Building Permit 2013-02364).

This current submission is for a proposed pre-engineered steel structure which is to be used for administrative operations and vessel maintenance. The proposed building is manufactured by Essex Structural Steel Co., Inc. and locally distributed and constructed by Irishspan Industries, Inc. The structure includes a steel member framing system and cast-in-place concrete foundation system. The proposed structure will measure 160'-0" wide x 180'-0" long. The structure will contain a wet sprinkler system designed by Advanced Fire Protection Services, LLC. We understand that they will submit a Fire Suppression Systems application for the project separately from the Building Permit application. We have also submitted an early Foundation Permit application to the Building Inspections office (See Permit #2014 01670). We hope that these application reviews can all run concurrently. The proposed building will contain multiple large overhead doors and multiple access doors around the building perimeter to meet code requirements. The heated building will contain a concrete floor throughout. The building will be located to the northwest side of the tension fabric building (Building A) as identified on the accompanying site plan drawings.

Included with this submission are the following plans and information:

- General Building Permit Application and Checklist, Certificate of Design Application and Certificate of Design
- Site Plans including Boundary Survey, Site Layout, Utility and Grading Plans (4 Sheets)
- Essex Building Plans including Framing Sections, Details and Related Information (23 sheets)
- Irishspan Industries, Inc. – Building Elevations (3 Sheets)
- The sprinkler design plans will be submitted for review under separate cover within the next two weeks
- Fire/Life Safety Code Review by Fire Risk Management, Inc.

The following information is provided for the Fire Protection Checklist:

1. Applicant Info: Canal Landing, LLC  
58 Fore Street  
Portland, ME 04101  
Tel. 207-774-1067
2. Architect Info: Irishspan Industries, Inc.  
107 Kennebunk Road  
Alfred, ME 04002  
Tel. 207-229-2092
3. Proposed Use of Structure – NFPA 13, IBC Group F-I, Factory Industrial
4. Square Footage of Structure – 28,800 SF
5. Proposed Fire Protection – Wet sprinkler system
6. Separate Plans for Suppression and Detection Systems – See plans and submission materials by Advanced Fire Protection Services, LLC
7. Life Safety Plan – See plans by Irishspan Industries, Inc. and report by Fire Risk Management
8. Elevators – Not Applicable

Please accept these application materials for processing and contact this office with the appropriate fee for these activities. Canal Landing, LLC will promptly provide the application fee within 24 hours of said notice. Canal Landing's schedule includes foundation construction followed by building erection. Canal Landing, LLC is seeking to commence building work by late August so they are interested in any opportunity allowing expedited review including the possibility for an early approval and authorization of their foundation package. We would appreciate an immediate reply from the Department regarding these requests.
