State of Maine, Department of Transportation
16 State House Station
Augusta, Maine 04333-0016

Joel Kittredge, Project Manager:

Thank you for your application for permit # 2016-02878 to demolish the structure at 74 West Commercial St. As previously discussed, the City of Portland supports your efforts and is satisfied that you have met the requirements for a demolition permit, with the exception of the asbestos abatement requirements and completion of a satisfactory pre-demolition inspection. To assist your efforts, the City commits to issuing your permit immediately upon satisfactory completion of the City's pre-demolition inspection and confirmation of a negative asbestos survey done by a licensed professional, or, if the survey reveals asbestos, confirmation of full abatement in accordance with state law.

Sincerely,

Michael A. Russell, Director

cc: Jonathan Rioux, Inspections Manager
