## CERTIFICATE OF LOAD TEST

**Crane/Hoist**

**Location:** Main Bay (new bldg.)

**Hoist**

**Model No:** 5T06H

**Crane**

**S/N:** CH-19315-6

**Rated Capacity:** 10 tons (two 5 ton hoists)

**Load Test:** Only one 5 ton hoist operational, used 12,090 lbs

**NOTES:** Crane span was engineered & modified by others. Load test deflection was minimal (well within allowable specs). Only one hoist was load tested to 121% of rated capacity. The crane itself was not load tested to its 10 ton capacity.

**This is to certify that we have subjected the above equipment to a functional load test to 121% of the rated capacity of one 5 ton hoist utilizing test weights as referenced in OSHA Section No. 1910.179 (K) (2).**
