Hello, according to the most recent permit for this property, a change of use permit, for it going from a Partially undeveloped gas distribution to a Boat Maintenance facility, has not been established. That change of use will be entered on this permit, as it being the first with structures. Also, please note an important issue: According to the City, the original CBL/Address for this job is all under 528 Commercial St (CBL:059 A008). For clarification and clarity, please use this information on all pending applications. You will receive confirmation with an invoice under separate e-mail when it is entered.
