### ***Portland Waterfront Marine Business Announces Expansion Plans***

Portland Yacht Services (PYS), a full-service marine business located at 58 Fore Street, recently met with city officials to announce plans to expand its boat yard, storage, and repair business at 40 West Commercial Street, just west of the Casco Bay Bridge.

The project conforms to the city's Port Development Zone vision, as well as PYS's long term business development. Phase-one of a multi-phase development plan will engage the city, abutting businesses and stakeholders in an informational process to gain valuable insight and feedback regarding project scope and operations.

Founded in 1981 and presently employing thirty-five people, PYS has grown steadily by offering Maine's renowned shipwright capabilities, latest state-of-the-art technology, exceptional service and a convenient location. It is expected that this multi-phase, multi-year development initiative will further enhance economic opportunity within the community. Visit PYS at:
