Please note marked Conditions of Approval

- * The boiler or furnace shall be protected by enclosing with one hour fire rated construction including fire doors and ceiling or by providing automatic extinguishment and smoke protected enclosure. Sprinkler piping serving not more than six sprinklers may be connected to a domestic water supply system having a capacity sufficient to provide a 0.15 gpm per sq ft of floor throughout the entire area. An indicating shut-off valve shall be installed in an accessible location between the sprinkler and the connection to the domestic water supply. Minimum pipe size shall be 3/4" copper or 1" steel. Maximum coverage area of a residential sprinkler in 144 sq ft per sprinkler.
- * All required fire alarm systems shall have the capacity of zone disconnect via switches or key pad program provided the method is approved by the Fire Prevention Bureau.
- * All remote annunciators shall have a visible trouble indicator along with the fire alarm zone indicators.
- * Any master box connected to the municipal fire alarm system shall have a supervised municipal disconnect switch.
- * All master box locations shall be approved by the Fire Dept. Director of Communications.
- * A master box shall be located so that the center of the box is five feet above finished floor.
- * All master box locations are required to have a Knox box.
- * A fire alarm acceptance report shall be submitted to the Portland Fire Department.
- ⊙ All underground tank removal(s) and/or installation(s) shall be done in accordance with the Department of Environmental Protection and Regulation (Chapter 691).
- ⊙ No cutting of tanks on site. Cutting of tanks to be done at an approved disposal site.
- * The fire dispatcher must be notified at least 48 hrs in advance of removal or transportation of tanks.
- * All above ground L/P tanks shall be located in accordance with NFPA 58 standards.
- * Any tank located near the path of vehicle movement shall be protected.
- * All piping shall be protected from possible mechanical damage and vandalism.
- * A 4" storz fire department connection is required.
- * Any renovation of sprinkler system over 20 heads must have State Fire Marshall approval.
- * A sprinkler performance test shall be submitted to the P.F.D. after completion of work.
- * State Fire Marshall approval is required for this project.

INSTRUCTIONS

- First - The applicant is to complete the front of this form. The Tax Map Reference (i.e., the tax assessor's "CSI" number, for line 3 of the application) can be found to the right of the double asterisk, in the lower center of your Real Estate Tax Bill. The Portland Water District Account Number (for line 6 of the application) can be found at the left middle part of the Water and Sewer bill. The billing name and address (for line 7 of the application) should be copied from your Water and Sewer bill as well.
- Second - Mail the completed application form to:

City of Portland
Dept. of Parks & Public Works
55 Portland Street
Portland, Maine 04101-2991

ATTN: MR. FRANK BRANCELY
- Third - The Public Works Department will call the person indicated on the front side to schedule a pre-installation inspection. During this inspection, information for the Public Works section of this form will be gathered. If the application is approved by Public Works, 3 copies will be made: one copy will be forwarded to the City Plumbing Inspector; one copy will be mailed to the Portland Water District; and one copy will be mailed to the Applicant. If the application is denied, then only one copy will be made and it will be mailed to the applicant showing the reason for denial. The original application will be kept on file in the Engineering Division, Dept. of Parks and Public Works.
- Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the submeter, as approved. Following installation, the applicant, or his plumber, must call the Chief of Inspection Serv. at 874-8300, Ext. 8104 for an installation inspection. Following this plumbing inspection, the Portland Water District will be requested to seal the submeter, and subsequently to read and to credit the volume shown on the submeter to the Sewer User Charges of the applicant's water bill.

GENERAL INFORMATION

Section 24-76(c) of the "Code of Ordinances, City of Portland, Maine" reads as follows:

"Submetering of Water Volume. Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the public works authority to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the public works authority of such installation and shall be responsible to the public works authority for reporting meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City, or its agents, at all reasonable times."

The City and the Water District have arranged to relieve the customer from the reporting responsibility required above, if both meters can be read simultaneously by the District's Meter Readers, during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the submeter directly adjacent to the pre-existing service meter, or by equipping the submeter, located elsewhere, with a remote reading register, so that both service and submeter readings can be made simultaneously.

Approved "Neptune" and "Rockwell" meters shall have the following specifications: (1) a bronze case; (2) the meter number stamped into the main bronze case; (3) straight reading, cubic foot registers; (4) a magnetic drive; (5) either a nutating disc or oscillating piston; (6) met, or exceeded, AWWA accuracy test requirements and be accompanied by a certificate of test accuracy. Approved meters are available from the Portland Water District, which sells them at the manufacturer's price. If you wish to purchase a submeter from the District, you must bring your yellow copy of the approved application with you, at the time of purchase.
