CITY OF PORTLAND, MAINE BOARD OF APPEALS

MISCELLANEOUS APPEAL

May 6, 1960 19

.R. B. Johonett , owner of property at 331 Spring Street under the provisions of Section 23 of the Zoning Ordinance of the City of Portland, hereby respectfully petitions the Board of Appeals to permit construction of a one-story wood frame addition 5 feet by 8½ feet on rear of dwelling at this location which is held of a duplex dwelling. This permit is presently not isauable because the addition is to be built on the lot line sequenting the two properties instead of being located at least 10 feet from that line as required by Sec. 5-B-2 of the Ordinance applying to the R-6 Residence Zone in which the property is located.

LEGAL BASIS OF APPEALS

Such permit may be granted only if the Board of Appeals finds that enforcement of the terms of the Ordinance would result in undue hardship and desirable fellef may be granted without substantially departing from the intent and purpose of the Ordinance.

APPELLANT

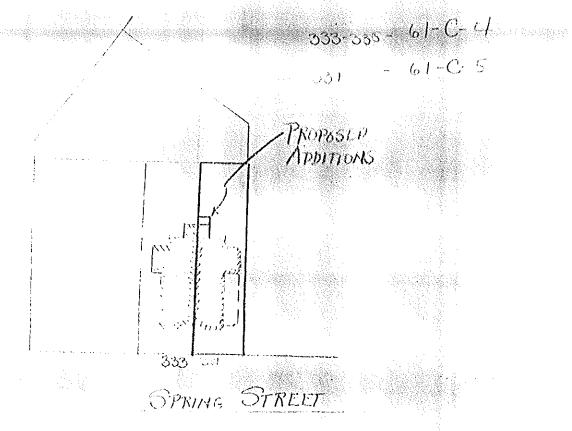

DECISION

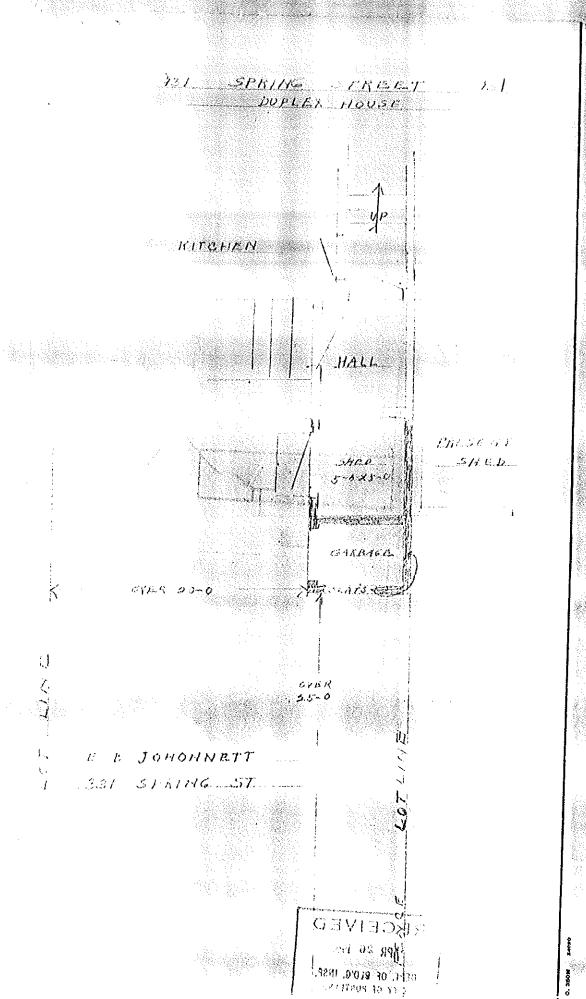

After public hearing held May 12, 1960 the Board of Appeals finds that enforcement of the terms of the Ordinance would result in undue hardship and desirable relief may be granted without substantially departing from the intent and purpose of the Ordinance.

It is, therefore, determined that permit should be issued in this case.
