Separate permits are required for Internal & External Plumbing, HVAC and Electrical installation.

- All construction must be conducted in compliance with the 1996 B.O.C.A. Building Code as amended by Section 6-Art II.
- All plumbing must be conducted in compliance with the State of Maine Plumbing Code.
- All Electrical Installation must comply with the 1996 National Electrical Code as amended by Section 6-Art III.
- HVAC (Heating, Ventilation and Air Conditioning) installation must comply with the 1993 BOCA Mechanical Code.

You must include the following with your application:

- 1) A Copy of Your Deed or Purchase and Sale Agreement
- 2) A Copy of your Construction Contract, if available
- 3) A Plot Plan/Site Plan

Minor or Major site plan review will be required for the above proposed projects. The attached checklist outlines the minimum standards for a site plan.

**4) Building Plans**

Unless exempted by State Law, construction documents must be designed by a registered design professional.

A complete set of construction drawings showing all of the following elements of construction:

- Cross Sections w/Framing details (including porches, decks w/ railings, and accessory structures)
- Floor Plans & Elevations
- Window and door schedules
- Foundation plans with required drainage and dampproofing
- Electrical and plumbing layout. Mechanical drawings for any specialized equipment such as furnaces, chimneys, gas equipment, HVAC equipment (air handling) or other types of work that may require special review must be included.

**Certification**

I hereby certify that I am the Owner of record of the named property, or that the proposed work is authorized by the owner of record and that I have been authorized by the owner to make this application as his/her authorized agent. I agree to conform to all applicable laws of this jurisdiction. In addition, if a permit for work described in this application is issued, I certify that the Code Official's authorized representative shall have the authority to enter all areas covered by this permit at any reasonable hour to enforce the provisions of the codes applicable to this permit.

**BUILDING PERMIT REPORT**

DATE: 22 July 99 ADDRESS: 342 Spring ST. CBL: 061-F1-6, 5-11  
 REASON FOR PERMIT: To Construct a building connector  
 BUILDING OWNER: Waynflete School  
 PERMIT APPLICANT: \_\_\_\_\_ /Contractor Cimino Construction Co.  
 USE GROUP E BOCA 1996 CONSTRUCTION TYPE 3B

CONDITION(S) OF APPROVAL

This permit is being issued with the understanding that the following conditions are met:

Approved with the following conditions: \*1, \*2, \*3, \*5, \*11, \*13, \*20, \*21, \*22, \*23, \*27, \*33, \*33, \*34, \*35, \*36, \*37

1. This permit does not excuse the applicant from meeting applicable State and Federal rules and laws.
2. Before concrete for foundation is placed, approvals from the Development Review Coordinator and Inspection Services must be obtained. (A 24 hour notice is required prior to inspection)
3. Foundation drain shall be placed around the perimeter of a foundation that consists of gravel or crushed stone containing not more than 10 percent material that passes through a No. 4 sieve. The drain shall extend a minimum of 12 inches beyond the outside edge of the footing. The thickness shall be such that the bottom of the drain is not higher than the bottom of the base under the floor, and that the top of the drain is not less than 6 inches above the top of the footing. The top of the drain shall be covered with an approved filter membrane material. Where a drain tile or perforated pipe is used, the invert of the pipe or tile shall not be higher than the floor elevation. The top of joints or top of perforations shall be protected with an approved filter membrane material. The pipe or tile shall be placed on not less than 2" of gravel or crushed stone, and shall be covered with not less than 6" of the same material. Section 1813.5.2
4. Foundations anchors shall be a minimum of 1/2" in diameter, 7" into the foundation wall, minimum of 12" from corners of foundation and a maximum 6' o.c. between bolts. (Section 2305.17)
5. Waterproofing and damp proofing shall be done in accordance with Section 1813.0 of the building code.
6. Precaution must be taken to protect concrete from freezing. Section 1908.0
7. It is strongly recommended that a registered land surveyor check all foundation forms before concrete is placed. This is done to verify that the proper setbacks are maintained.
8. Private garages located beneath habitable rooms in occupancies in Use Group R-1, R-2, R-3 or I-1 shall be separated from adjacent interior spaces by fire partitions and floor/ceiling assembly which are constructed with not less than 1-hour fire resisting rating. Private garages attached side-by-side to rooms in the above occupancies shall be completely separated from the interior spaces and the attic area by means of 1/2 inch gypsum board or the equivalent applied to the garage means of 1/2 inch gypsum board or the equivalent applied to the garage side. (Chapter 4, Section 407.0 of the BOCA/1996)
9. All chimneys and vents shall be installed and maintained as per Chapter 12 of the City's Mechanical Code. (The BOCA National Mechanical Code/1993). Chapter 12 & NFPA 211
10. Sound transmission control in residential building shall be done in accordance with Chapter 12, Section 1214.0 of the City's Building Code.
11. Guardrails & Handrails: A guardrail system is a system of building components located near the open sides of elevated walking surfaces for the purpose of minimizing the possibility of an accidental fall from the walking surface to the lower level. Minimum height all Use Groups 42", except Use Group R which is 36". In occupancies in Use Group A, B, H-4, I-1, I-2, M and R and public garages and open parking structures, open guards shall have balusters or be of solid material such that a sphere with a diameter of 4" cannot pass through any opening. Guards shall not have an ornamental pattern that would provide a ladder effect. (Handrails shall be a minimum of 3e4" but not more than 38". Use Group R-3 shall not be less than 30", but not more than 38".) Handrail grip size shall have a circular cross section with an outside diameter of at least 1 1/4" and not greater than 2". (Sections 1021 & 1022.0) - Handrails shall be on both sides of stairway. (Section 1014.7)
12. Headroom in habitable space is a minimum of 7'6". (Section 1204.0)
13. Stair construction in Use Group R-3 & R-4 is a minimum of 10" tread and 7 3/4" maximum rise. All other Use Group minimum 11" tread, 7" maximum rise. (Section 1014.0)
14. The minimum headroom in all parts of a stairway shall not be less than 80 inches. (6'8") 1014.4
15. Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside without the use of special knowledge or separate tools. Where windows are provided as means of egress or rescue they shall have a sill height not more than 44 inches (1118mm) above the floor. All egress or rescue windows from sleeping rooms shall have a minimum net clear opening height dimension of 24 inches (610mm). The minimum net clear opening width dimension shall be 20 inches (508mm), and a minimum net clear opening of 5.7 sq. ft. (Section 1018.6)
16. Each apartment shall have access to two (2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units. (Section 1010.1)
17. All vertical openings shall be enclosed with construction having a fire rating of at least one (1) hour, including fire doors with self closer's. (Over 3 stories in height requirements for fire rating is two (2) hours.) (Section 710.0)

**MEMORANDUM**

Date: **August 9, 1999**  
Project: **Waynefleete Middle School**  
To: **Sam Hoffses**  
**Chief of Code Enforcement Division**  
**City of Portland**  
From: **David Tetreault**  
Subject: **Seismic Loading**

Dear Sam:

Seismic loading was not considered for the addition between the Morrill and Cook Hyde Buildings at Waynefleete School. Due to the relatively light weight construction and small plan area of the addition, the lateral loads due to wind are higher than the lateral loads due to earthquake.

The lateral bracing for both existing buildings consists of unreinforced brick walls that do not meet current seismic code provisions. The unreinforced brick walls have sufficient strength to resist lateral loads, but do not meet seismic detailing requirements for ductility. The new addition is built between the existing buildings. It would be prohibitively expensive to upgrade the existing buildings to conform with the existing seismic code provisions and it doesn't appear to be the intent of the code to require such an upgrade.

**Waynflete School Middle School Facility Addition**  
**Conditional Use/ Site Plan Review – Final Submission**

**Dear Deb:**

On behalf of our client HKTA/ architects I am pleased to submit the attached (7 copies) of Documentation and Final Plans for your review prior to the Public Hearing scheduled for May 25<sup>th</sup>.

The following Site Plans are being submitted:

- L-1 Final Site Plan including 1"=80' Context Plan; 1"=20' Site Plan; 1"=10' Detail Site Plan.
- L-2 Site Details and Notes
- A1.1, A1.2, A2.1 Architectural Floor Plans and Elevations

The following exhibits are attached hereto:

1. USGS Locus Plan
2. Medium Intensity Soils Map
3. Zoning Map
4. Storm Water Narrative
5. Deeds

**Project Description:**

Waynflete School is proposing an Addition (link) and Renovations to the Middle School Facility located at the corner of Spring and Storer Streets. The Addition will connect the R.C. Hyde House (west) and Morrill House (east). The south side, ground floor of the link will provide a new main entrance and interior gathering area for the Middle School Facility.

The proposed addition has a footprint of approximately 971 sf. The total building footprint for the two "houses" and the new link will be approximately 5,132 sf.

The proposed project will not increase staffing or enrollment. No new drives or parking are proposed. Site work will be limited to removal of shrubs; removal of bituminous pavement, relocation of existing stone slabs used for seating, a new concrete pavement at the building entrance, landscaping to replace shrubs, and recessed soffit lighting at the entrance. As requested, the existing basketball pole, backboard and a tetherball pole will be removed.

A new covered entrance is proposed to the basement level of Hurd House on . The small building addition on the south side will require the removal of approximately 6 lf. of dry laid stone wall and construction of a small concrete sidewalk pad. Loam and sod is proposed to replant disturbed lawn area.

**Pedestrian and Vehicular Circulation:**

The proposed addition will not alter the existing pedestrian or vehicular circulation. Pedestrians can approach the building from Spring St. via Storer St. or along a sidewalk on the westerly side of Hyde

LAND USE CONSULTANTS INC

House. The site is also connected by bituminous sidewalks to a vehicular drop-off area and parking lot behind the Thomas Building, to the west of the Middle School Facility.

Utilities:

The existing facility is served by public water and sewer from Spring Street. The Hyde building is also sprinklered. Electric power is fed from a utility pole on Spring Street, overhead to a meter panel on the west side of Morrill House. The building subcontractor is doing mechanical and electrical design. We will be submitting a letter from the Portland Water District. No increase in student or staff enrollment is proposed so no additional sewer flow is proposed.

Storm Drainage:

The front of the building drains toward Spring Street to a curb inlet at Spring near Storer St. The rear area of the building sheet flows easterly toward Storer St. and westerly toward the campus and eventually infiltrating plant beds or lawns. A parking area located to the east of the Gym drains to a catch basin. Storer St. appears to sheet flow to the south to Danforth St. and in turn, follows the gutter along the northerly side of Danforth St. to a curb inlet on the easterly side of the intersection of Danforth and Fletcher St. David Kamila, PE has prepared a brief storm water summary that is attached hereto. The proposed building link will have a flat roof which will be drained internally. Roof rains will be tied to the combined sewer in Spring Street with a separate storm drain. We do not anticipate this drain being larger than 4"-6". The size will be determined by the mechanical design-build contractor. The 24" sewer in Spring St. is approximately 8.5 ft. deep.

Lighting:

Lighting to the rear of the Middle School Facility is very much residential in character. Both Hyde and Morrill have small, wall mounted flood lamps above or adjacent to the rear entrances. The garage (locker building) behind Hyde/Morrill has a small wall pack light soffit mounted above the door on the westerly side of the building. Hurd House has a wall pack light mounted at about 16 ft. on the northerly side of the building. There is a utility light (250 w Mercury vapor) mounted on the back (westerly) side of Hurd that illuminates the HC Lift and lawn on the easterly side of Daveis Hall. There is a soffit mounted wall pack light on the back of the small garage on the southwest side of Hurd House.

Solid Waste:

Waynflete School is served by Waste Management. Solid waste is stored in containers in the garage located on the southerly side of Hurd House. Containers include 2-3 yard dumpsters for regular trash, 1-3 yard dumpster for cardboard recycling, and 6 bins for paper recycling. There will be no increase in solid waste as a result of the new addition. Construction debris will be removed to a licensed disposal facility.

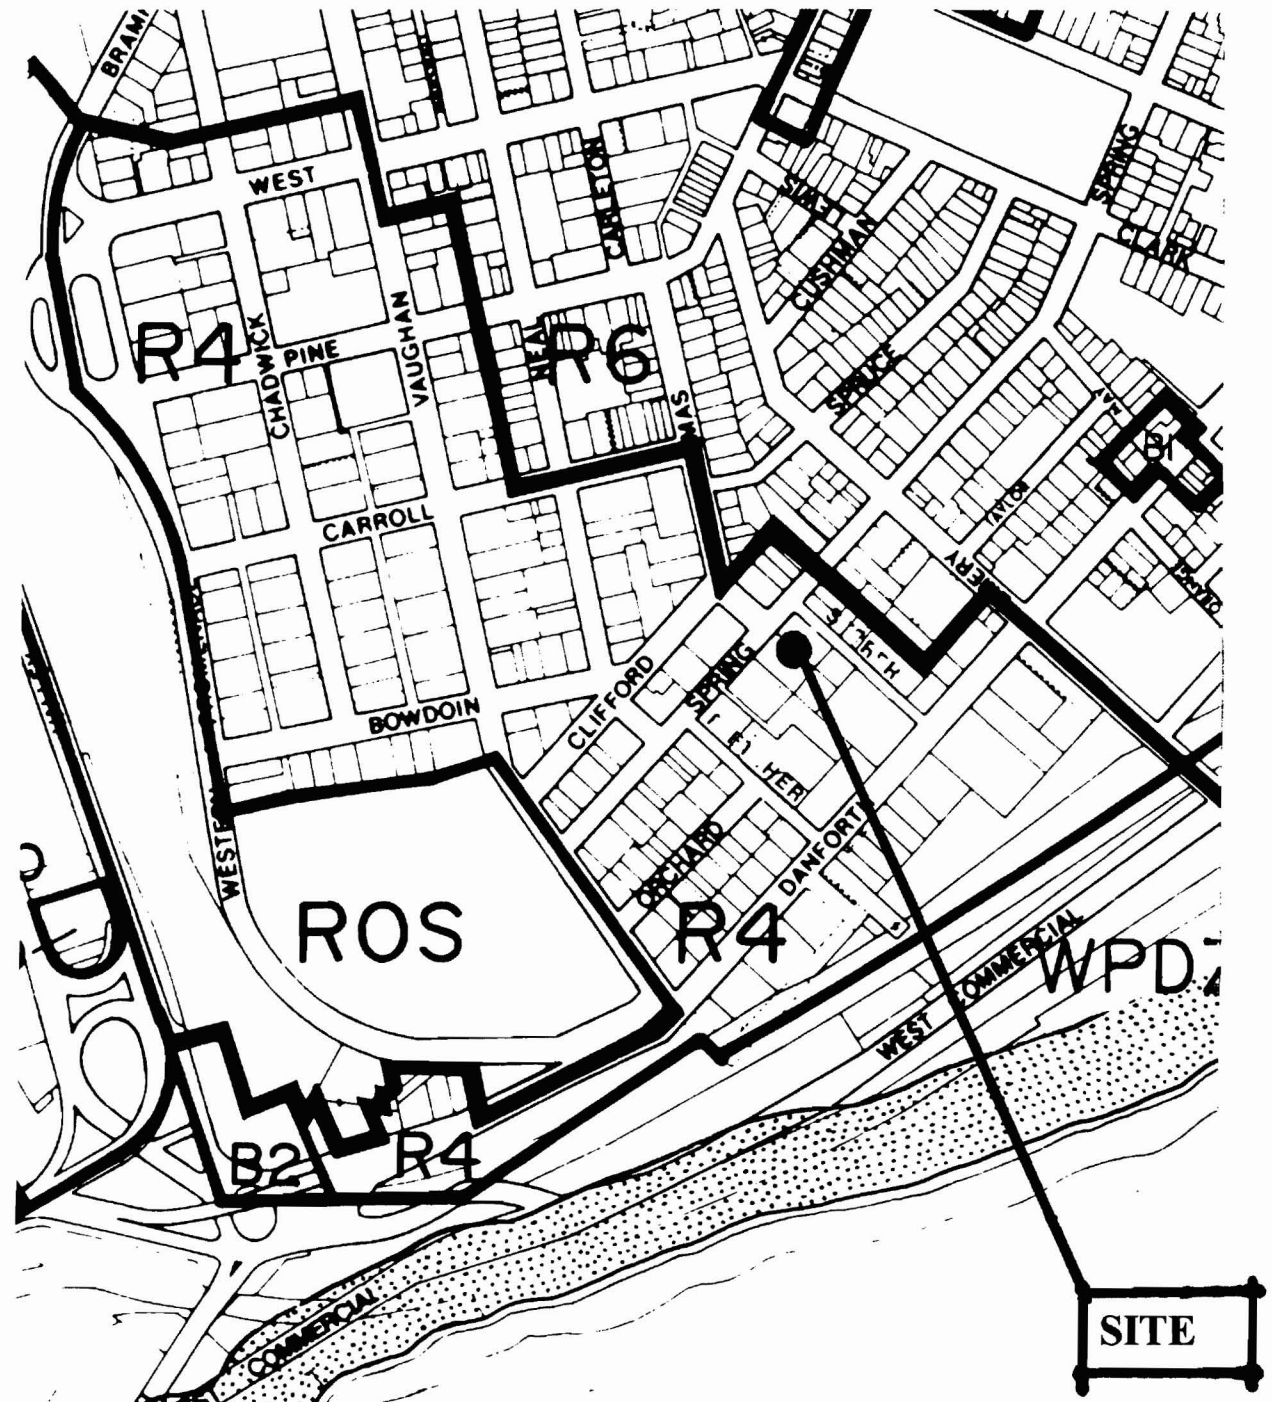

We are looking forward to attending the public hearing on May 25<sup>th</sup> at which time HKTA/ architects will present a rendering of the new addition that will show the proposed façades and demonstrate how the addition links the existing building and complements the historic, Waynflete Campus and west end neighborhood. Please call me with any questions, comments or requests for additional documentation.

Sincerely,

  
Thomas N. Emery, RLA

**Waynflete School Addition, Drainage**

Dear Bob:

I have reviewed the plans for the proposed addition to the R. C. Hyde and Morrill Houses on the Waynflete School Campus and based on a discussion with Tom Emery, and his onsite observations, do not expect any adverse impact on or off the site as a result of the stormwater runoff from this project.

The area proposed to be developed is currently a lawn area between the buildings which drains by sheet flow across the campus in a generally southerly direction and mostly is absorbed by infiltration into lawns and planting beds. No stormdrains or catch basins exist in this area of the campus.

The proposed addition will create approximately 1,000 sq. ft. of impervious roof surface along with a small entry plaza. The roof will largely be drained by an internal building drain which will be connected to the 24 in. combined system in Spring Street.

Due to the relatively small amount of runoff involved with this project (less than a typical single family home) there should not be any adverse impact on the existing drainage system.

Please call if you wish to discuss this in more detail.

Sincerely,

David A. Kamila, P. E.  
Vice President

Hymie Gulak  
Waynflete School  
360 Spring Street  
Portland, Maine 04102

re: Proposed Middle School Connector; 338 & 342 Spring Street

Dear Mr. Gulak:

On June 22, 1999 the Portland Planning Board voted 5-0 (Carroll, Hagge absent) to approve your application to construct a building addition which will connect the Cook Hyde and Morrill houses at 338 and 342 Spring Street. The Board found that the application met the standards of the Site Plan and Historic Preservation ordinances as well as the conditional use standards of the Land Use code.

The approval was granted for the project with the following condition(s):

- i. that a sample mockup of the brickwork be reviewed and approved by historic preservation staff prior to commencement of work
- ii. that a final window detail for the Spring Street facade be submitted for historic preservation staff review and approval
- iii. that the site plan be revised to show a 4"-6" caliper ornamental deciduous tree to be planted in front of the addition, near the Spring Street sidewalk. City Arborist to review and approve final tree selection
- iv. that recessed incandescent light fixtures be installed in that portion of the addition's interior closest to Spring Street. On the third floor, fixtures to be installed only on either end of the connector, not visible from the street.

The approval is based on the submitted site plan and elevations and the findings related to site plan historic preservation and conditional use review standards as contained in Planning Report # 24-99, which is attached.

Please note the following provisions and requirements for all site plan approvals:

1. A performance guarantee covering the site improvements as well as an inspection fee payment of 1.7% of the guarantee amount and 7 final sets of plans must be submitted to and approved by the Planning Division and Public Works prior to the release of the building permit. If you need to make any modifications to the approved site plan, you must submit a revised site plan for staff review and approval.
2. The site plan approval will be deemed to have expired unless work in the development has commenced within one (1) year of the approval or within a time period agreed upon in writing by the City and the applicant. Requests to extend approvals must be received before the expiration date.
3. A defect guarantee, consisting of 10% of the performance guarantee, must be posted before the performance guarantee will be released.
4. Prior to construction, a preconstruction meeting shall be held at the project site with the contractor, development review coordinator, Public Work's representative and owner to review the construction schedule and critical aspects of the site work. At that time, the site/building contractor shall provide three (3) copies of a detailed construction schedule to the attending City representatives. It shall be the contractor's responsibility to arrange a mutually agreeable time for the preconstruction meeting.
5. If work will occur within the public right-of-way such as utilities, curb, sidewalk and driveway construction, a street opening permit(s) is required for your site. Please contact Carol Merritt at 874-8300, ext. 8828. (Only excavators licensed by the City of Portland are eligible.)

The Development Review Coordinator (874-8300 ext. 8722) must be notified five (5) working days prior to date required for final site inspection. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.

If there are any questions, please contact the Planning Staff.

Sincerely,

John H. Carroll, Chair  
Portland Planning Board

## Know All Men by These Presents,

51

That we, STANLEY E. HERRICK, JR. and SARAH R. HERRICK, both of Portland in the County of Cumberland and State of Maine,

in consideration of One Dollar (\$1.00) and other valuable consideration,

paid by THE WAYNFLETE SCHOOL, a literary, educational and scientific corporation organized and existing under the provisions of Chapter 70 of the Revised Statutes of 1930 and all acts additional thereto and amendatory thereof and located at said Portland, the receipt whereof we do hereby acknowledge, do hereby give, grant, bargain, sell and convey unto the said THE WAYNFLETE SCHOOL, its successors

and assigns forever, a certain lot or parcel of land, with the buildings thereon, situated on the southerly side of Spring Street in said Portland and bounded and described as follows, to wit: Beginning at the northerly corner of land now or formerly of John Randall in the line of said Spring Street; thence running easterly on the line of said street seventy-five (75) feet to Storer Street, so called; thence southerly by said Storer Street one hundred forty-six and one-half (146½) feet, more or less, to land conveyed by Seth C. Dyer to C. J. Barbour; thence westerly by said Barbour land and parallel with said Spring Street seventy-five (75) feet to land now or formerly of John Randall; thence northerly by said Randall land to the place of beginning; together with all my right, title and interest in and to said Storer Street.

Being the same premises conveyed to the Grantors herein by Frances D. Fisher by Warranty Deed dated February 23, 1956 and recorded in the Cumberland County Registry of Deeds in Book 2277, Page 88.

This conveyance is made subject, however, to a certain mortgage given by these Grantors to the Federal Loan and Building Association dated June 17, 1960 and recorded in said Registry of Deeds in Book 2543, Page 63, which the Grantee herein by its acceptance of this deed hereby assumes and agrees to pay.

No. 101

## Know All Men by these Presents,

That I, RUTH COOK HYDE of Portland in the County of Cumberland and State of Maine

in consideration of One Dollar (\$1.00) and other valuable considerations, being less than One Hundred Dollars (\$100.00)

paid by WAYNFLETE SCHOOL, a corporation organized and existing under the laws of Maine and located at Portland in the County of Cumberland and State of Maine

the receipt whereof I do hereby acknowledge, do hereby give, grant, bargain, sell and convey, unto the said Waynflete School, its successors

~~Meine~~ and Assigns forever,

the following described property:

A certain lot or parcel of land situated in said Portland beginning at the southeasterly corner of land of the Grantor adjoining the southwesterly corner of land, now or formerly, of Donald P. Hurd et al; thence northerly by said Hurd land eighty (80) feet, more or less, to its northwesterly corner; thence westerly eighty-seven and one-half ( $87\frac{1}{2}$ ) feet to the northeasterly corner of land of the Grantee; thence southerly by Grantee's land seventy-eight (78) feet, more or less, to an angle and other land of the Grantee; thence easterly by the Grantee's land eighty-seven and one-half ( $87\frac{1}{2}$ ) feet to the point of beginning.

Being the southerly portion of the premises conveyed to Charles Cook by Joseph W. Symonds, Assignee, by deed dated December 23, 1886, recorded in Cumberland County Registry of Deeds in Book 531, Page 430, and by Anna Louise Wilson by deed dated June 23, 1887, recorded in said Registry of Deeds in Book 533, Page 323.

This conveyance is made subject to the following restrictions which shall run with the land for the benefit of the remaining portion of said premises:

- (1) said lot shall not be used as a playground;
- (2) no structure shall be built upon any portion of said premises except that a building not exceeding in height above sea level the present roof of Sills Hall, so-called, may be erected upon the most southerly twenty (20) feet of said land.
