Hi Bob,

I'm in the process of reviewing this permit application you submitted, and I just wanted to touch base on a couple things.

First, the addition of the small storage area does not technically qualify for fast-track permitting, but I spoke with Jeanie Bourke (code plan reviewer) and she is OK with allowing this as fast track. Please be aware that the plans have not been reviewed for code compliance and it is the responsibility of the landowner and contractor to ensure it is built to code.

Also, I had a question about the fence - what height will the fence be? If it will be 6 ft or less it doesn't technically require permitting, but I just want to note for the record what it will be.

Thanks,
Chris

Hi Chris,

Sounds great on the storage shed, thanks for letting it go by as fast track.

The majority of the fence is 4' tall but there is one section at 6', which is kept at that height intentionally.

Let me know if you have any other questions.

Bob
