 The City's Adopted Mechanical Code (The BOCA National Mechanical Code/1993)

CONDITION(S) OF APPROVAL

This permit is being issued with the understanding that the following conditions shall be met: *1, *11, *33, *34, *36
*38, #32, #39

1. This permit does not excuse the applicant from meeting applicable State and Federal rules and laws.
2. Before concrete for foundation is placed, approvals from the Development Review Coordinator and Inspection Services must be obtained. (A 24 hour notice is required prior to inspection) "ALL LOT LINES SHALL BE CLEARLY MARKED BEFORE CALLING."
3. Foundation drain shall be placed around the perimeter of a foundation that consists of gravel or crushed stone containing not more than 10 percent material that passes through a No. 4 sieve. The drain shall extend a minimum of 12 inches beyond the outside edge of the footing. The thickness shall be such that the bottom of the drain is not higher than the bottom of the base under the floor, and that the top of the drain is not less than 6 inches above the top of the footing. The top of the drain shall be covered with an approved filter membrane material. Where a drain tile or perforated pipe is used, the invert of the pipe or tile shall not be higher than the floor elevation. The top of joints or top of perforations shall be protected with an approved filter membrane material. The pipe or tile shall be placed on not less than 2" of gravel or crushed stone, and shall be covered with not less than 6" of the same material. Section 1813.5.2
4. Foundations anchors shall be a minimum of 1/2" in diameter, 7" into the foundation wall, minimum of 12" from corners of foundation and a maximum 6' O.C. between bolts. Section 2305.17
5. Waterproofing and dampproofing shall be done in accordance with Section 1813.0 of the building code.
6. Precaution must be taken to protect concrete and masonry. Concrete Sections 1908.9-19.8.10/ Masonry Sections 2111.3-2111.4.
7. It is strongly recommended that a registered land surveyor check all foundation forms before concrete is placed. This is done to verify that the proper setbacks are maintained.
8. Private garages located beneath habitable rooms in occupancies in Use Group R-1, R-2, R-3 or I-1 shall be separated from adjacent interior spaces by fire partitions and floor/ceiling assembly which are constructed with not less than 1-hour fire resisting rating. Private garages attached side-by-side to rooms in the above occupancies shall be completely separated from the interior spaces and the attic area by means of 1/2 inch gypsum board or the equivalent applied to the garage side. (Chapter 4, Section 407.0 of the BOCA/1999)
9. All chimneys and vents shall be installed and maintained as per Chapter 12 of the City's Mechanical Code. (The BOCA National Mechanical Code/1993). Chapter 12 & NFPA 211
10. Sound transmission control in residential building shall be done in accordance with Chapter 12, Section 1214.0 of the City's Building Code.
11. Guardrails & Handrails: A guardrail system is a system of building components located near the open sides of elevated walking surfaces for the purpose of minimizing the possibility of an accidental fall from the walking surface to the lower level. Minimum height all Use Groups 42". In occupancies in Use Group A, B.H-4, I-1, I-2, M, R, public garages and open parking structures, open guards shall have balusters or be of solid material such that a sphere with a diameter of 4" cannot pass through any opening. Guards shall not have an ornamental pattern that would provide a ladder effect. Handrails shall be a minimum of 34" but not more than 38". Exception: Handrails that form part of a guard shall have a height not less than 36 inches (914 mm) and not more than 42 inches (1067 mm). Handrail grip size shall have a circular cross section with an outside diameter of at least 1 1/4" and not greater than 2". (Sections 1021 & 1022.0). Handrails shall be on both sides of stairway. (Section 1014.7)
12. Headroom in habitable space is a minimum of 7'6". (Section 1204.0)
13. Stair construction in Use Group R-3 & R-4 is a minimum of 10" tread and 7 1/4" maximum rise. All other Use Group minimum 11" tread, 7" maximum rise. (Section 1014.0)
14. The minimum headroom in all parts of a stairway shall not be less than 80 inches. (6'8") 1014.4
15. The Minimum required width of a corridor shall be determined by the most restrictive of the criteria under section 1011.3 but not less than 36".
16. Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside without the use of special knowledge or separate tools. Where windows are provided as means of egress or rescue they shall have a sill height not more than 44 inches (1118mm) above the floor. All egress or rescue windows from sleeping rooms shall have a minimum net clear opening height dimension of 24 inches (610mm). The minimum net clear opening width dimension shall be 20 inches (508mm), and a minimum net clear opening of 5.7 sq. ft. (Section 1010.4)
17. Each apartment shall have access to two (2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units. (Section 1010.1)
18. All vertical openings shall be enclosed with construction having a fire rating of at least one (1) hour, including fire doors with self closure's. (Over 3 stories in height requirements for fire rating is two (2) hours. (Section 710.0)
19. The boiler shall be protected by enclosing with (1) hour fire rated construction including fire doors and ceiling, or by providing automatic extinguishment. (Table 302.1.1)

- 20. All single and multiple station smoke detectors shall be of an approved type and shall be installed in accordance with the provisions of the City's Building Code Chapter 9, Section 920.3.2 (BOCA National Building Code/1999), and NFPA 101 Chapter 18 & 19. (Smoke detectors shall be installed and maintained at the following locations):
 - In the immediate vicinity of bedrooms
 - In all bedrooms
 - In each story within a dwelling unit, including basements
- 21. A portable fire extinguisher shall be located as per NFPA #10. They shall bear the label of an approved agency and be of an approved type. (Section 921.0)
- 22. The Fire Alarm System shall be installed and maintained to NFPA #72 Standard.
- 23. The Sprinkler System shall be installed and maintained to NFPA #13 Standard.
- 24. All exit signs, lights and means of egress lighting shall be done in accordance with Chapter 10 Section & Subsections 1023.0 & 1024.0 of the City's Building Code. (The BOCA National Building Code/1999)
- 25. Section 25 - 135 of the Municipal Code for the City of Portland states, "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year".
- 26. The builder of a facility to which Section 4594-C of the Maine State Human Rights Act Title 5 MRSA refers, shall obtain a certification from a design professional that the plans commencing construction of the facility, the builder shall submit the certification the Division of Inspection Services.
- 27. Ventilation and access shall meet the requirements of Chapter 12 Sections 1210.0 and 1211.0 of the City's Building Code. (Crawl spaces & attics).
- 28. All electrical, plumbing and HVAC permits must be obtained by Master Licensed holders of their trade. No closing in of walls until all electrical (min. 72 hours notice) and plumbing inspections have been done.
- 29. All requirements must be met before a final Certificate of Occupancy is issued.
- 30. All building elements shall meet the fastening schedule as per Table 2305.2 of the City's Building Code (The BOCA National Building Code/1996).
- 31. Ventilation of spaces within a building shall be done in accordance with the City's Mechanical code (The BOCA National Mechanical Code/1993). (Chapter M-16)
- 32. Please read and implement the attached Land Use Zoning report requirements. *to remain 3 Dwelling units This is not an approval to add additional units*
- 33. Boring, cutting and notching shall be done in accordance with Sections 2305.3, 2305.3.1, 2305.4.4 and 2305.5.1 of the City's Building Code.
- 34. Bridging shall comply with Section 2305.16.
- 35. Glass and glazing shall meet the requirements of Chapter 24 of the building code. (Safety Glazing Section 2406.0)
- 36. All flashing shall comply with Section 1406.3.10.
- 37. All signage shall be done in accordance with Section 3102.0 signs of the City's Building Code, (The BOCA National Building Code/1999).
- * 38. *This permit is being issued with the understanding that Historic Preservation will review and approve your plan as stated, if not this permit is void =*
- * 39. *SHALL NOT INCREASE THE EXISTING FOOTPRINT OF PORCH AND SITING*

HISTORIC PRESERVATION REVIEW

Note: Your property is an individually designated landmark structure or is located within a designated historic district. As such, alterations to the building exterior or site which are visible from a public way are subject to review and approval under Article IX (Historic Preservation) of the Land Use Code. Your building or sign permit application has been reviewed to determine whether the nature or scope of the project requires review, and if so, whether it meets the standards of the historic preservation ordinance.

ACTION

Does not Require Review (e.g. Interior work only / alteration is not readily visible from a public way)

Note: this finding is based on the understanding that the application entails interior work only or that the proposed exterior alteration(s) will not be readily visible from a public way. If your project entails exterior or site alterations (including the installation of sign(s), awnings, or exterior lighting for such) these alterations must be reviewed and approved prior to commencing with the work. Contact 874-8726 for more information.

Denied Reason for Denial: _____

Approved as submitted _____

Approved with conditions (see below)

Conditions of Approval:

Contact Historic Preservation Staff (874-8726 or 874-8728) prior to installation of sign(s) to confirm approved location.

Your sign permit includes no reference to exterior lighting; if lighting is included, please submit information on fixtures and specifications on installation.

Other conditions:

1. Approved to proceed w/ pool construction, with exception of railings, which require approval of special exemption.
2. _____
3. _____

Application for Exemption From Building Code Railing Height Requirements

* Exemptions apply only for designated landmark structures and structures located in historic districts, per BOCA regulations. Requests need approval from both the Historic Preservation and Building Inspections divisions of the Planning Dept.

DESCRIPTION OF PROJECT

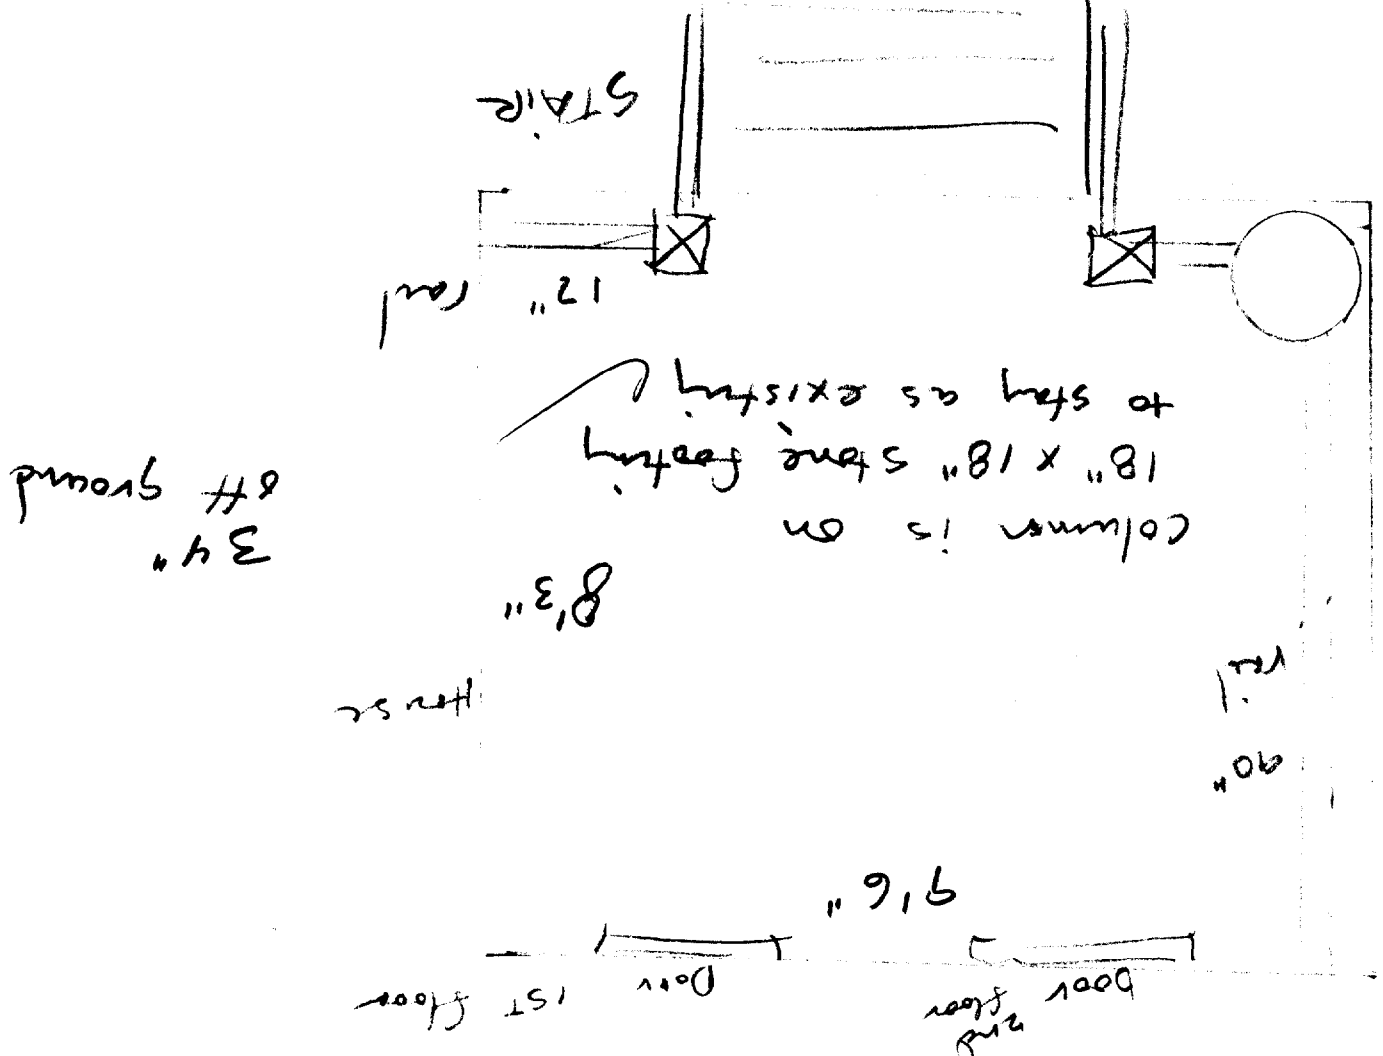

Describe in a separate paragraph each type of proposed exterior architectural alteration, such as window replacement, roof replacement, porch alteration, repointing of masonry, or new addition/construction. Briefly describe the feature or materials affected by the work and give the approximate date that it was constructed, if known. Describe in detail the proposed work and how it will impact the existing feature. Use as many items as necessary to cover all aspects of the project. If more space is needed, continue on a separate page. Reference work items to accompanying drawings or photographs.

Repair / Replace existing framing, railings + balustrades columns + decking. We'll be fabricating new railings + elongating balustrades for new railing height of 3'. Replace boxed columns w/ new tapered round poly/carb. (8") for structural corner. Also replacing pre-cast stone steps w/ wood treads + risers + handrail + balustrades to match existing.

Existing 2 level porch to be rebuilt as existing w/ new columns, railings + balustrades to match (as per discussion w/ Deb Anderson)

186'

34" off ground

Column is on 18" x 18" stone footing to stay as existing

8'3"

Handwritten note

90" rail

2nd floor deck is 12'8" off ground

Handwritten notes at the bottom of the page, including 'Handwritten note' and 'Door from 2nd floor'.

Description of Work

- jack & support 2nd story roof structure w/ 4" x 6" from ground ✓
- demo 1st & 2nd story railings, columns + decking ✓
- reframe w/ 2^{PT} x 10 if needed for decking ✓
double up 2 x 10's for rim joist + ledger
use hangers for remaining joist on 16" centers ✓
- deck w/ 3/4" fir tongue + groove ✓
- new columns on outside corner (2) will be structural Poly cast. ✓
- railings 2 1/4" x 3 1/2" spanish cedar milled to match existing top of rail @ 3' bottom rail 3 1/2" to 4" off decking ✓
- 4 new post, 2 notched into rim joist on 1st floor for stair opening, 2 more notched into stringers @ bottom of stairs w/ railing heights + conditions to match deck. ✓
- balustrades will be reproduced to match existing ✓
