To Whom It May Concern:

This letter is to inform you that on December 4, 2017, we completed the installation, programming and testing of the new fire alarm devices installed in the building located at 32 Thomas Street in Portland, ME. These new devices were tied into the building's existing fire alarm control panel and programmed and test to NFPA 72 standards with test signals sent from these devices and received at our Central Monitoring Station. These devices were found to be fully functional at that time.

Should you have any questions or comments regarding this matter, please feel free to contact me at (207) 846-3350.

Sincerely,

Ronald S. Snider, Manager

Re: Fire Sprinkler System work for  
32 Thomas Street Portland, Maine

Please be informed that the above Fire Sprinkler Systems have been design and installed to meet the code requirements of NFPA #13, State of Maine Fire Marshall office and Portland Fire Department requirements.

All work was completed by Residential Fire Protection license # 511

If you have any questions or concerns please contact us at (207) 946-3473

Thank you

Stan Camic
