Note for file

Tuck, Deb and I reviewed the rehabilitation work progress on site yesterday (with Matthew Winch) and the work is virtually complete. Deb will check on the minor outstanding items.

Next week we need to discuss the issuance of the CO for the offices- it has been held per the CZA (CO to be issued after work completed, or have PG for any outstanding work).

Further documentation of the "completion" may be appropriate- pl advise.

Thanks
Jean
