RENOVATION4

10/22/10

Jeanie Bourke Director Code Enforcement 389 Congress Street Portland, Maine 04101

RECEIVED Dept. of Building Inspections City of Portland Maine

RE: 205 Vaughan Street, Unit 12

Dear Jeanie,

Papi and Romano Builders, Inc. plans to renovate Unit 12 located at 205 Vaughan Street. An application for permitting has been submitted and includes a new kitchen floor plan and drawings provided by L & L Structural Engineering for the structural work needed to complete the kitchen renovations.

In addition to the aforementioned, the following work will also be undertaken :

- · where applicable , sheetrock patching will be completed with like kind Type X drywall
- the cellings will be replaced with new 5/8" Type X smooth drywall
- · the existing bathroom fixtures will be removed and replaced with new in same locations
- · the existing interior paneled doors will replaced with new flush doors
- the hardwood floors will be refinished
- · the walls and ceilings will be prepped, primed and painted

Currently the bathroom fans are vented internally, though not planned at this stage, they may be replaced and vented to the exterior. As well, if approved by Portland Historic Preservation, we would like to vent the range hood to the exterior. We recognize the need for fire rated dampers and the need to notify your office for approval should this be undertaken.

We will be installing some recessed lighting, where we do, we plan on using IC rated and fire rated housings. Both the plumbing and electrical contractors will also submit applications for permitting.

Respectfully Submitted,

Rih Koman
