BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 to schedule your inspections as agreed upon

Permits expire in 6 months, if the project is not started or ceases for 6 months.

The Owner or their designee is required to notify the inspections office for the following inspections and provide adequate notice. Notice must be called in 48-72 hours in advance in order to schedule an inspection:

By initializing at each inspection time, you are agreeing that you understand the inspection procedure and additional fees from a "Stop Work Order" and "Stop Work Order Release" will be incurred if the procedure is not followed as stated below.

A Pre-construction Meeting will take place upon receipt of your building permit.

- NA Footing/Building Location Inspection: Prior to pouring concrete
- NA Re-Bar Schedule Inspection: Prior to pouring concrete
- NA Foundation Inspection: Prior to placing ANY backfill
- Framing/Rough Plumbing/Electrical: Prior to any insulating or drywalling
- Final/Certificate of Occupancy: Prior to any occupancy of the structure or use. ~~NOTE: There is a \$75.00 fee per inspection at this point.~~

Certificate of Occupancy is not required for certain projects. Your inspector can advise you if your project requires a Certificate of Occupancy. All projects DO require a final inspection

If any of the inspections do not occur, the project cannot go on to the next phase, REGARDLESS OF THE NOTICE OR CIRCUMSTANCES.

NA **CERIFICATE OF OCCUPANICES MUST BE ISSUED AND PAID FOR, BEFORE THE SPACE MAY BE OCCUPIED**

March 18, 2005

Then personally appeared the above-named Gordon D. Simonds, and acknowledged foregoing instrument to be his free act and deed in his said capacity.

Before me,

Notary Public/Attorney at Law (Type or Print)

Name Loni Scriver

My commission Expires:

EXHIBIT A

A certain lot or parcel of land with the buildings thereon, situated in said Portland at the intersection of the Southerly side line of West Street and the Westerly side line of Chadwick Street, bounded as follows: Beginning at the intersection of said lines; thence Southerly by the Westerly side line of Chadwick Street one hundred (100) feet to a stal thence Westerly parallel with the said West Street fifty (50) feet; thence Northerly parallel with said Chadwick Street one hundred (100) feet to said Southerly side line of West Street; thence Easterly by the Southerly side line of said West Street fifty (50) feet to the point beginning, containing five thousand (5000) square feet. Said lot is subject to the conditions and limitations set forth in the deed of Arthur K. Hunt to Henrietta S. Burrows dated the first day of December, A.D. 1897 and recorded in the Cumberland County Registry of Deeds, Book 656, Page 440. Being the same premises conveyed to Jennie McLellan Duncan by John W. Burrows by his warranty deed dated October 4, 1900 and recorded in said Cumberland County Registry of Deeds, Book 695, Page 135.

Also, a certain other lot or parcel of land adjoining the above described parcel of land bounded and described as follows: Beginning at point in the Southerly side line of West Street, which point is one hundred (100) feet Westerly by said Southerly side line of West Street from the point of intersection of the Westerly side line of Chadwick Street; thence running Southerly by land formerly of Emelinn P. Richardson one hundred (100) feet to the Northerly side line of a passageway in the rear of the lot hereby conveyed; thence Easterly by the said Northerly side line of said passageway forty-nine and thirty-three one hundred (49 33/100) feet to land first above described; thence Northerly by said first above described land one hundred (100) feet to the Southerly side line of said West Street; thence Westerly by said Southerly side line of West Street fifty (50) feet, more or less, to the point of beginning, containing forty-nine hundred and sixty-six (4966) square feet, more or less. Also the right to use in common with others of the passageway hereinbefore referred to. Also all my right, title and interest in and to so much of the said West Street as adjoins the lot just described, being the same premises conveyed to the said Jennie McLellan Duncan by Arthur K. Hunt by his warranty deed dated September 13, 1900, and recorded in said Cumberland County Registry of Deeds, Book 695, Page 24, to which said deed reference may be had for further particulars.

Also, a certain other lot or parcel of land adjoining the next above described parcel of land on the Westerly side thereof and bounded and described as follows: beginning at a point in the Southerly side line of West Street, which point is one hundred and twenty-five (125) feet Westerly by said Southerly side line of West Street from the point of intersection of the Westerly side line of Chadwick Street with said Southerly side line of West Street; thence Southerly on a line parallel with the Easterly line of the Western Promenade one hundred (100) feet to a passageway fifteen (15) feet wide; thence Easterly by the Northerly line of said passageway and parallel with said West Street twenty five (25) feet to land first above described; thence Northerly by said land next above described and parallel with the Easterly line of the Western Promenade one hundred (100) feet to said West Street; thence Westerly by said West Street twenty-five (25) feet to the point of beginning. This last described lot is part of a certain parcel of land conveyed to Emelinn P. Richardson by Arthur K. Hunt by deed dated January 31, 1898, and recorded in said Cumberland County Registry of Deeds, Book 660, Page 253, and being the same premises conveyed to the said Jennie McLellan Duncan by the said Emelinn P. Richardson by her warranty deed dated June 1, 1911 and recorded in said Cumberland County Registry of Deeds, Book 876, page 235.

Also, all my right, title and interest in the passageway hereinabove referred to, and being the right to use the same conveyed by Emelinn P. Richardson to the said Jennie McLellan Duncan by her quit-claim deed dated June 10, 1911 and recorded in said Cumberland County Registry of Deeds, Book 873, Page 224, to which said deed reference may be had for further particulars of description.

Re: **Structural Design** – 104 West Street, Portland, Maine
CME Project No. 05-155

Dear Tom,

At your request, we met at the property at 104 West Street in Portland, Maine on May 19, 2005 to perform a limited structural review and evaluation of an existing interior load-bearing wall. We were asked to recommend a structural beam to be used as a header for a proposed opening in the existing interior load-bearing wall located within the first floor.

The purpose of this inspection is to provide structural design services, specifically the design of a laminated engineered wood beam to support a portion of the second and attic floor levels over a proposed opening in an existing interior load-bearing wall. Mr. Landry, the building General Contractor was present with us during the inspection and provided useful information regarding the future use of the first floor space.

The interior framing members supporting the second floor level and portions of the attic and roof framing were viewed during this inspection. The building is currently being renovated. The wood framing we observed appears to be in good condition at this time

The building at 104 West Street in Portland is a 2½-story brick building, built more than one hundred years ago. The building is constructed of exterior multi wythe brick walls supported on perimeter stone and brick foundation. Interior wood framed load bearing walls provide support to the interior floors and portions of the roof framing. The interior load bearing walls are supported at the first floor level by wood girders spanning between steel lally columns founded on concrete basement floor. The general condition of the framing elements that were visible to inspection is good at this time. We observed portions of the exterior walls, second floor framing, attic floor joist and roof framing from within the building. We inspected only those areas of the building that are tributary to the proposed opening in the wall at the first floor and supporting the design loads into the foundation. The inspection included and was limited to review of the framing that was exposed following removal of the interior finishes by Corner Stone Building & Restoration.

DESIGN

®

Tom Landry
May 24, 2005

Page 2

Mr. Landry accompanied us during the inspection and provided useful information regarding the proposed renovations and floor plans.

The building standard used to evaluate and render an opinion of structural adequacy of the building foundation was the current edition of the International Building Code (IBC) 2003 with the addition of the ASCE Standard, Minimum Design Loads for Buildings and Other Structures 7-02 and the National Design Specification® for Wood Construction, NDS, 1997 edition.

This evaluation and design consisted of a visual survey of the existing conditions as they appeared on May 19, 2005. No other part of the building was inspected for adequacy except for the limited portion of the first and second floor framing and attic framing that was tributary to the proposed beam installation.

As Professional Engineers, it is our responsibility to evaluate available evidence relevant to the structural system in this building. We are not, however, responsible for conditions that could not be seen or were not within the scope of our services at the time of the inspection.

The design documents attached to this letter, design sketches SK1-3, outline the materials and specifications necessary to construct a wood beam over an opening in a load-bearing wall.

Prior to removal of any portion of the existing interior load-bearing wall, adequate shoring of the existing second floor joists and wall is required. Shoring is also required to extend down to the basement slab foundation. Failure to adhere to the specifications contained within this document may result in serious injury.

As discussed, this was a preliminary investigation. We made recommendations in accordance with the scope of this inspection, evaluation and design.

It has been a pleasure working with you on this project. We hope that you will call us if you have further questions concerning this report. In addition, should you need any further assistance in the future we would be glad to be of service to you.

Yours truly,

Christopher F. Ray, P.E.
Project Engineer
