**HISTORIC PRESERVATION
APPLICATION FOR CERTIFICATE OF APPROPRIATENESS**

Pursuant to review under the City of Portland's Historic Preservation Ordinance (Chapter 14, Article IX of the Portland City Code), application is hereby made for a Certificate of Appropriateness for the following work on the specified historic property:

PROJECT ADDRESS: 147 Pine Street

CHART/BLOCK/LOT: _____ (for staff use only)

PROJECT DESCRIPTION: Describe below each major component of your project. Describe how the proposed work will impact existing architectural features and/or building materials. If more space is needed, continue on a separate page. Attach drawings, photographs and/or specifications as necessary to fully illustrate your project—see following page for suggested attachments.

We propose to replace the masonry porch and front steps of our house with an appropriate wooden porch and steps, consistent with the original design of our house. The project will require the complete demolition of the current masonry porch and steps and the construction of a new wooden porch and steps. Metal railings will be installed on both sides of the new steps.

We believe that this project will have a positive impact on the building because it will restore the front porch and steps to the appearance they likely would have had when the building was constructed. The project will also restore unity to our duplex building, since our neighbor's side of the building currently has a wooden porch and steps.

The materials will include:

- **Pressure treated pine porch framing**
- **Eastern white cedar porch decking**
- **Eastern white cedar stair risers and treads, with full bullnose**
- **Painted tubular iron railing**

We have attached drawings prepared by the contractor.
